Senior Software Engineer
August 2013 - August 2014 (1 year 1 month)
Minsk, Belarus

Customer: Retail & Distribution NBTY EU (Holland & Barrett brand) is the UK's leading retailer of vitamins, minerals and herbal supplements.

https://www.hollandandbarrett.com/
https://www.gnc.co.uk/

Project: NBTY-COMM
NBTY EU (Holland & Barrett brand) has nearly completed implementing phase 1 of their new eCommerce application on ATG 10.X/Endeca. Developed by Professional Access (PA), the application is now in UAT phase for soft launch (as of 8/7/13). NBTY has contracted us to take over for PA once they complete their soft launch / warranty phase. After that the project turns into multi channel NBTY program: Holland & Barrett and GNC.

Project Roles: Senior Developer

Responsibilities: development and customization, ATG/Endeca integration (app config, indexing, incremental updates mechanism), Endeca Preview (authoring), XM (site specific - segments, cartridges, microbrowser), SEO, Search, TypeAhead, Refinements, Multisite (H&B, GNC), GNC Blogs; bugfixing, code review, refactoring.

Achievements: stable application for customer, excellent experience of working with legacy code and refactoring.

Team: 23 people (project peak), 2 locations, 1 year.

Database: Oracle DB 11gR2
Tools: Eclipse, Weblogic, Oracle SQL Developer, Ant, TortoiseSVN, Jira, Confluence
Technologies: ATG 10.1.1, Endeca, Java EE 6, SQL, JSP, Web Services, Front End (JS, JQuery, CSS), Agile

Software Engineer
January 2013 - July 2013 (7 months)
Minsk, Belarus
